Description

Dextran is a complex branched glucan (polysaccharide made of many glucose molecules) composed of chains of varying lengths. It is used medicinally as an antithrombotic (antiplatelet), to reduce blood viscosity, and as a volume expander in hypovolaemia.

Currently, there are only five major suppliers in this industry, including Pharmacosmos, pK Chemicals, Meito Sangyo, Polydex Pharm and Jinyang Biological Pharmaceutical. Pharmacosmos and pK Chemicals are two global leading suppliers with both headquarter in Denmark. Meito Sangyo is the only Japan Dextran manufacturer. Polydex Pharm produces Polydex Pharm in Canada. Jinyang Biological Pharmaceutical's production base is in China, and it also is a China leading company.

Europe is the largest consumption place, with a consumption market share nearly 58%.

Report Scope

This report quantifies the global Dextran market in revenue (US\$ million) and, where applicable, sales volume (MT), using 2025 as the base year and providing annual historical and forecast data for 2021–2032.

It standardizes definitions of types and applications, harmonizes vendor attribution, and presents comparable time series by company, type, application, and region/country, including indicative price bands (US\$/MT) and concentration ratios (CR5/CR10).

The outputs are intended to support strategy development, budgeting, and performance benchmarking for manufacturers, new entrants, channel partners, and investors; the report also reviews technology shifts and notable product introductions relevant to Dextran.

Key Companies & Market Share Insights

This section profiles leading manufacturers, combining 2021–2025 results with a 2026–2032 outlook. It reports revenue, market share, price bands, product and application mix, regional and channel mix, and key developments (M&A, capacity additions, certifications). It also provides global revenue, average price, and—where applicable—sales volume by manufacturer, and calculates CR5/CR10 and rank changes to support comparative benchmarking.
