Description

Polyvinylidene chloride (PVDC) Barrier Material was one of the first polymers to be commercialized. Due to low gas and vapor permeability, it is widely used in the manufacture of food and consumer goods packaging, as well as in areas where high resistance to moisture and aggressive medium is required.

Global PVDC Barrier Material key players include DowDuPont, Kureha, Asahi Kasei, Juhua, Solvay, etc. Global top five manufacturers hold a share over 75%.

The United States is the largest market, with a share over 40%, followed by Europe and Japan, both have a share over 45% percent. In terms of product, PVDC Resins is the largest segment, with a share over 85%. And in terms of application, the largest application is Food Packaging and Wrap, followed by Pharmaceuticals Packaging.

Report Scope

This report quantifies the global PVDC Barrier Material market in revenue (US\$ million) and, where applicable, sales volume (K MT), using 2025 as the base year and providing annual historical and forecast data for 2021–2032.

It standardizes definitions of types and applications, harmonizes vendor attribution, and presents comparable time series by company, type, application, and region/country, including indicative price bands (US\$/K MT) and concentration ratios (CR5/CR10).

The outputs are intended to support strategy development, budgeting, and performance benchmarking for manufacturers, new entrants, channel partners, and investors; the report also reviews technology shifts and notable product introductions relevant to PVDC Barrier Material.

Key Companies & Market Share Insights

This section profiles leading manufacturers, combining 2021–2025 results with a 2026–2032 outlook. It reports revenue, market share, price bands, product and application mix, regional and channel mix, and key developments (M&A, capacity additions, certifications). It also provides global revenue, average price, and—where applicable—sales volume by manufacturer, and calculates CR5/CR10 and rank changes to support comparative benchmarking.
