### Description

Tankless water heaters, also known as instantaneous or on-demand water heaters, provide hot water without using a storage tank. Like tank water heaters, tankless water heaters use either gas or electricity to operate. Cold water travels through a pipe into the unit, and either a gas burner or an electric element heats the water. Tankless water heaters can be supplementary units placed at the point of use or can replace a centralized tank water heater.

Global Tankless Electric Water Heater main players are Stiebel Eltron, Rheem, Bosch, Bradford White Corporation, etc. Global top four manufacturers hold a share over 45%. North America is the largest market, with a share nearly 30%.

### Report Scope

This report quantifies the global Tankless Electric Water Heater market in terms of revenue (US\$ million) and, where applicable, sales volume (K Units), using 2025 as the base year and providing annual historical and forecast data for 2021–2032.

It standardizes definitions of Types and Applications, harmonizes vendor attribution, and presents comparable time series by company, Type, Application, and region/country, including indicative price bands (US\$/K Units) and concentration ratios (CR5/CR10).

The outputs are intended to support strategy development, budgeting, and performance benchmarking for brand owners, manufacturers, retailers, channel partners, and investors; data are structured with consistent units and fields to facilitate integration into internal FP&A and BI systems.
