Description

Instant noodles or instant ramen are noodles sold in a precooked and dried block with flavouring powder and/or seasoning oil. The flavouring is usually in a separate packet, although in the case of cup noodle, the flavouring is often loose in the cup. Some instant noodle products are seal packed; these can be reheated or eaten straight from the packet/container. Dried noodle blocks are designed to be cooked or soaked in boiling water before eating but can be consumed dry.

In terms of product types, Instant Noodles can be divided into Chicken, Beef, Seafood and Vegetables. In 2019, Beef Instant Noodles accounted for the largest share of the total market, accounting for about 49%.

In terms of product applications, Instant Noodles can be divided into two categories: Household and Restaurant. In 2019, Household applications dominated the market, accounting for 86% of the total.
