Description

Stand Up Paddle Board and stand up paddle boarding (SUP) are offshoots of surfing that originated in Hawaii. Unlike traditional surfing where the rider sits until a wave comes, stand up paddle boarders stand on their boards and use a paddle to propel themselves through the water. Stand Up Paddle Boarding is one of the fastest growing water sports. A combination of kayaking and surfing, this sports is fundamentally standing on a surfboard and using a paddle to propel oneself. Stand Up Paddle boards are longer, wider, and more buoyant than traditional surfboards, which enables you to comfortably balance on them.

The major players in United States Stand Up Paddle Board market include SUP ATX, Naish Surfing, BIC Sport, etc. The top 3 players occupy about 30% shares of the whole market. The Middle & South Atlantic and The West are main markets, they occupy about 55% of the whole market. Solid SUP Boards is the main type, with a share about 70%. For Surf and For Allround are key applications, which hold a share about 60% altogether.
