Description

A sump pump is a pump used to remove water that has accumulated in a water-collecting sump basin, commonly found in the basements of homes. Sump pumps are used where basement flooding happens regularly and to solve dampness where the water table is above the foundation of a home. Sump pumps send water away from a house to any place where it is no longer problematic, such as a municipal storm drain or a dry well.

In American market, the South America is the largest Sump Pumps market with about 37% market share. The West America is follower, accounting for about 22% market share.

The key players are Pentair, Zoeller, Franklin Electric, Liberty Pumps, Wayne, Xylem, Grundfos, Sulzer, WILO, Glenetronics, RIDGID, Tsurumi Pump, LEO Group etc. Top 3 companies occupied about 40% market share.
