Description

Three-Screw Pump which is also called Triple Screw Pumps are positive displacement pumps that have a centrally-located primary screw intermeshing with two secondary screws on each side, with the central screw driving the two outer idler rotors. Constant volume of the chambers and the uniformity of the movement allow an even flow.

Global Three-Screw Pump key players include Circor, Alfa Laval, Leistritz, Celeros, KRAL, etc. Global top five manufacturers hold a share about 26%. Asia-Pacific is the largest market, with a share about 30%, followed by America and Europe, both have a share about 50 percent. In terms of product, Medium Pressure Three-Screw Pump is the largest segment, with a share over 50%. And in terms of application, the largest application is Petrochemical Industries, followed by Chemical and Power Generation, etc.

Report Scope

This report quantifies the global Three-Screw Pump market in revenue (US\$ million) and, where applicable, sales volume (K Units), using 2025 as the base year and providing annual historical and forecast data for 2021–2032.

It standardizes definitions of types and applications, harmonizes vendor attribution, and presents comparable time series by company, type, application, and region/country, including indicative price bands (US\$/K Units) and concentration ratios (CR5/CR10).

The outputs are intended to support strategy development, budgeting, and performance benchmarking for manufacturers, new entrants, channel partners, and investors; the report also reviews technology shifts and notable product introductions relevant to Three-Screw Pump.

Key Companies & Market Share Insights

This section profiles leading manufacturers, combining 2021–2025 results with a 2026–2032 outlook. It reports revenue, market share, price bands, product and application mix, regional and channel mix, and key developments (M&A, capacity additions, certifications). It also provides global revenue, average price, and—where applicable—sales volume by manufacturer, and calculates CR5/CR10 and rank changes to support comparative benchmarking.
