Description

Trailed Mixers are the most economical solution for mixing and distributing animal feed on the farm. The mixers has two types, vertical and horizontal. These products can save capitals, and save labor by reducing the transportation distance of feed. Using trialed mixers can expand the feed source, such as wet beer meal, cottonseed, etc., and can reduce feed costs.

Of the major players of Trailed Mixers, KUHN Industries maintained its first place in the ranking in 2019. followed by SILOKING Mayer, Faresin Industries, Alltech (KEENAN), Seko Industries. The Top 5 players accounted for 29% of the global Trailed Mixers revenue market share in 2019.

Asia-Pacific occupied the largest revenue market share, which is followed by Europe and North America. South America and Mideast & Africa have smaller market share.

On the basis of product type, the Vertical Trailed Mixers segment is projected to account for the largest sales volume market share during the forecast period. Horizontal Trailed Mixers held the rest market.

In the applications, Beef Cows segment was estimated to account for the highest market share, followed by Dairy Cows, etc.
