### Description

A treadmill is a device generally for walking or running while staying in the same place. The belt moves to the rear, requiring the user to walk or run at a speed matching that of the belt. The rate at which the belt moves is the rate of walking or running. Thus, the speed of running may be controlled and measured. The more expensive, heavy-duty versions are motor-driven (usually by an electric motor). The simpler, lighter, and less expensive versions passively resist the motion, moving only when walkers push the belt with their feet. The latter are known as manual treadmills.

Global Treadmill key players include ICON Health & Fitness, BH, Life Fitness, Johnson Health, Nautilus, etc. Global top five manufacturers hold a share over 45%.

North America is the largest market, with a share over 35%, followed by Europe and Asia-Pacific, both have a share over 45%.

In terms of product, Single Function Treadmill is the largest segment, with a share about 87%. And in terms of application, the largest application is Home, followed by Commercial, etc.

### Report Scope

This report quantifies the global Treadmill market in revenue (US\$ million) and, where applicable, sales volume (K Units), using 2025 as the base year and providing annual historical and forecast data for 2021–2032.

It standardizes definitions of types and applications, harmonizes vendor attribution, and presents comparable time series by company, type, application, and region/country, including indicative price bands (US\$/K Units) and concentration ratios (CR5/CR10).

The outputs are intended to support strategy development, budgeting, and performance benchmarking for manufacturers, new entrants, channel partners, and investors; the report also reviews technology shifts and notable product introductions relevant to Treadmill.

### Key Companies & Market Share Insights
