Description

Velcro (Hook & Loop) consists of two components: typically, two lineal fabric strips (or, alternatively, round "dots" or squares) which are attached (sewn or otherwise adhered) to the opposing surfaces to be fastened. The first component features tiny hooks, the second features smaller loops. When the two are pressed together the hooks catch in the loops and the two pieces fasten or bind temporarily. When separated, by pulling or peeling the two surfaces apart, the strips make a distinctive "ripping" sound.

Asia-Pacific is the largest consumption market, accounting for about 53% of market share in 2019, in terms of volume.

The Velcro (Hook & Loop) industry is relatively scattered. The leading players are Velcro Inc, 3M, APLIX Inc., Kuraray Group and YKK. The Top 5 accounted for about 51% of the global revenue share in 2019.
