Description

Seam sealer tape delivers a new level of waterproof protection. Seam sealer tape can be used on the seams of different types of waterproof products. The numerous advantages of multi-layered seam sealing tapes—in terms of superior waterproofing, excellent adhesion and a wide range of applications—have contributed to the high growth of the multi-layered segment in the seam sealing tapes market. Its numerous applications include apparels, tents, tarpaulins, footwear, and backpacks, among others. The single-layered segment is projected to register lesser growth during the forecast period, owing to the limited applications of single-layered seam sealing tapes.

There are several players in seam sealer tape market such as Bemis Associates, 3M, Sika, Toray Industries, Sealon, Himel Corp., Ding Zing, etc. Among them, Bemis Associates is the largest one with the percentage of about 10% value share in 2019.

As for consumption market, North America, Asia-Pacific and Europe are the mainly consumption regions. In 2019, Asia-Pacific occupied about 47% of the global consumption volume in total. Followed by North America accounted for about 25% in 2019.
