Description

Agricultural insurance protects against loss of or damage to crops or livestock. It has great potential to provide value to low-income farmers and their communities, both by protecting farmers when shocks occur and by encouraging greater investment in crops. However, in practice its effectiveness has often been constrained by the difficulty of designing good products and by demand constraints.

Global Agricultural Insurance key players include PICC, Zurich, Chubb, Sampo, QBE, etc. Global top five manufacturers hold a share about 35%.

Asia-Pacific is the largest market, with a share about 45%, followed by North America and Europe, both have a share about 50 percent.

In terms of product, Crop/MPCI is the largest segment, with a share about 75%. And in terms of application, the largest application is Agencies, followed by Brokers.
